Professional Summary

Frontend-focused Software Engineer with a UX/UI background and full-stack experience building customer-facing web applications using **Next.js, React, TypeScript, Node.js, Postgres**, and **AWS**. Experienced delivering polished user journeys, payment integrations, authentication systems, reporting interfaces, analytics events, testing, and production monitoring. Passionate about building intuitive, accessible, production-ready software that connects user needs with business goals.

Work Experience

UX Software Engineer | *Shack Shine* July 2025 – May 2026

Frontend-focused software engineer building and maintaining customer-facing and internal web applications across online booking, payments, customer portals, authentication, analytics, and operational reporting.

- **Modernized Shack Shine's primary Online Booking Engine** by leading a frontend rebuild from legacy PHP to a scalable **Next.js, TypeScript, and Tailwind CSS** application integrated with **Salesforce** workflows.
- Implemented **Moneris** and **TSYS** iframe **payment integrations** across frontend flows and **Next.js API routes** for Canadian and U.S. customer transactions.
- Improved production monitoring and debugging using **New Relic, Pino Logger**, and **AWS CloudWatch** to track booking funnel activity, client-side errors, payment flows, and server-side issues.
- **Strengthened release confidence** by building **Vitest unit tests** and **Playwright E2E coverage** across mobile and cross-browser flows, paired with **Unleash feature flags** for safer releases.
- Developed authenticated customer portal experiences with **AWS Cognito**, including sign-up, login, password recovery, dashboards, appointment details, and a magic-link returning-customer flow.
- Built frontend interfaces for the ShineOS operations portal with role-based access through **AWS Cognito groups**, connecting reporting views to PostgreSQL-backed workflows and validation logic.
- Implemented and validated **Google Tag Manager** data-layer events across booking steps and key customer interactions to support attribution and conversion analysis.
- **Leverage Claude, Cursor, and AI-assisted workflows** for legacy code analysis, implementation, debugging, refactoring, and delivery planning.

Teaching Assistant Full-Stack Web Development | *Henry Bootcamp* | April 2025 – July 2025

- Reviewed code and debugged full-stack student projects using HTML, CSS, JavaScript, React, Node.js, Express, and SQL/NoSQL databases.
- Guided students through API integration, component logic, database concepts, Git workflows, and full-stack development best practices.

UX/UI Development Intern | *Canadian Hispanic-Latin American Virtual Museum* | Mar 2024 – May 2024

- Built an interactive proof-of-concept virtual exhibit using Blender, Godot, and GDScript.
- Evaluated usability, responsiveness, and accessibility across platforms using WCAG principles.

- Designed digital assets for YouTube and other online channels to support a cohesive visual identity.
-

Selected Projects

Fulbeeto - AI-Powered World Cup Companion | June 2026

<https://fulbeeto.vercel.app/en>

- Built a bilingual World Cup companion using Next.js 16 and TypeScript, featuring live fixtures, group standings, and a knockout bracket.
- Integrated the Anthropic API to create BeeBot, an AI assistant that uses tool calling to retrieve live match data and stream grounded responses.
- Added rate limiting, conversation-history trimming, and input validation, using Claude Co-work to accelerate implementation while reviewing, testing, and refining the code.

SmartQR – Self-Ordering Web App | May 2025 – June 2025

<https://smart-qr-front.vercel.app>

- Built a mobile-first ordering platform with Auth0 authentication, dynamic QR-code generation, and session-state management.
 - Designed the user flows, interface, and visual identity in Figma and FigJam.
 - Selected as one of Henry Bootcamp's top four projects of the month and showcased at Demo Day.
-

Technical Skills

Frontend: Next.js, React, TypeScript, JavaScript, Tailwind CSS, HTML, CSS, Responsive Design

UX/UI: Figma, FigJam, User Flows, Wireframing, Accessibility, WCAG

Backend: Node.js, Express, Next.js API Routes, REST APIs, PostgreSQL, MongoDB

Testing & Production: Vitest, Playwright, AWS Cognito, CloudWatch, New Relic, Docker, GitHub Actions, Vercel

Integrations & Tools: Moneris, TSYS, Salesforce, Auth0, Git, GitHub, Jira, Claude, Cursor

Education

Full-Stack Development Certificate | Henry Bootcamp | Jan 2025 - Jun 2025

- *SmartQR* project selected as the top of the month, showcased at Henry's Demo Day.

Diploma in Multimedia Design and Development | Humber College (ON, Canada) | Jan 2023 - Jul 2024

- Graduated with Honours; Dean's List

Advanced Diploma in Technical & Scientific Translation | Instituto Superior Dardo Rocha (Argentina) |

Mar 2012 – Dec 2017

Languages

- Spanish: native
- English: fluent (EF SET C2 Proficient)
